

CLUBHOUSE®

CLUBHOUSE®
DECKING

Outdoor Living Refined. Performance Defined.

Next-generation PVC decking with limited transferable lifetime performance warranty.

Dual-color, dual-embossed boards enable design options from the same board.

Deep, rich color infused into each timber with random graining process to mimic nature's genius.

You Belong Here.

INSPIRED BY NATURE.
TECHNOLOGY TO STAND
UP TO IT.

CLUBHOUSE[®]
DECKING

When you set out to make the industry's most remarkable outdoor living space, there's only one place to find inspiration: **the outdoors**. By looking at colors and textures found in nature, and combining that with our passion for innovation and technology, we've been able to create decking that has the look of real wood, but none of the problems that come with it.

Imagine Your Place in the Sun.

ENTERTAIN IN LUXURY;
ESCAPE IN SUPREME COMFORT.

Clubhouse® Decking showcases
nature in a dramatic departure from
ordinary planks and drab details.

Enjoy.

Clubhouse Decking is the first of a new generation of
PVC decking that incorporates advanced material science,
world-class engineering, and patented performance
manufacturing to produce a deck that is stunning in every
kind of weather.

YEAR, AFTER YEAR, AFTER YEAR.

**LIMITED TRANSFERABLE LIFETIME
PERFORMANCE WARRANTY**

for unprecedented peace of mind.

**25-YEAR LIMITED FADE
& STAIN WARRANTY**

for unsurpassed assurance of beauty, year after year.

Get Creative with Your Space.

IF YOU WANT THE MOST BENDABLE,
WORKABLE DECKING IN THE
INDUSTRY, LOOK NO FURTHER
THAN CLUBHOUSE DECKING.

Clubhouse's dense cell structure allows it to be heated and bent without bubbling up and compromising the woodgrain texture that makes Clubhouse so eye-catching. In other words, you get beautiful, unique shapes that real-wood just can't offer. And we're so confident in our product's bendability, we actually warrant it even after it's been bent.

Relax.

INCREDIBLE CHOICE COMES WITH INCREDIBLE BEAUTY. **Naturally**

There's a secret why Clubhouse® Decking shows so well at parties, get-togethers, and as an icon of neighborhood envy.

It's in the way our deep, rich color is infused into each timber and the exclusive random graining process we created to mimic nature in its organic genius so that nearly every board is different.

And it's also in a special bonus: our unique dual-color, dual-embossed options on every board allow you to create multiple looks with ease (borders, framing, stair treads in different colors), lower inventory, and more opportunity to use spare boards.

Natural Selection .

HARDWOOD COLLECTION

Distinctive variegated grains that give your Clubhouse deck a truly unique, natural wood feel. Our Hardwood Collection is designed with variation in color and patterns to allow for the most realistic replication of true hardwood decking.

EARTHTONE COLLECTION

Stylish solid shades that offer the look of painted wood without the need for maintenance ... a light cleaning is all that is needed.

Hardwood Collection

Driftwood

Hickory

Ironwood

Mahogany

Walnut

Ipe

Earhtone Collection

Brookstone

Cobblestone

Sandstone

Clay

Colors shown are by a lithographic process and may vary from the actual product color. Please see your Clubhouse Representative for actual color samples.

Details that Make the Difference.

INGENUITY THAT
DOUBLES AS DESIGN. *Sensational.*

THE INGENUOUS CLUBHOUSE® FASTENING SYSTEM

is a hidden secret designed to show off the beauty and elegant lines of premium Clubhouse Decking without any visible means of support.

The system includes the Clubhouse ConnectClip to leave deck surfaces completely unmarred and the seamless Clubhouse Cortex® plug for perimeter areas and stairs.

In addition, the Clubhouse Hidden Fastener Biscuit option acts like a tongue, simultaneously spacing the deck boards and holding them down.

Innovation at Work, Genius at Play.

Show your smarts in a deck that will outperform and outlast without losing its beautiful, natural good looks.

Clubhouse® has no wood or wood fillers to warp, rot or break down. But it does have a proprietary formulation that produces a super-dense structure that is impervious to water and provides dramatic strength and protection against impact.

And Clubhouse is protected by an ingenious capstock technology that's blended into a single-extrusion process for a stunning low-gloss, natural matte finish that resists oxidation, clouding, fading and staining far beyond the competition.

Performance Defined.

Superior Strength.

Clubhouse Brazilian Hardwood

Clubhouse Competitive Cellular PVC Decking

Laboratory impact tests* prove that Clubhouse Decking with Korelite technology has better impact resistance.

**Laboratory impact test includes 2 1/2" 10-pound steel weight dropped from 80".*

Performance Matrix.

	Composites	TruNorth/Clubhouse Wood Free Composites	Cellular PVC	Clubhouse PVC Decking	Benefit
Preferred look of wood	XX	XX	XX	XXX	3 out of 4 Homeowners prefer the look of Clubhouse Decking
Low Moisture Absorption	XX	XXX	XX	XXX	Rejects mold, mildew and the effects of freeze-thaw cycle due to closed cell construction and no fillers
High Impact Resistance	X	XXX	X	XXX	Flooring industry tests illustrate the hardness of Clubhouse
Strength Under Foot	XXX	XXX	XX	XXX	More solid underfoot - less bounce. Code approved for wider stair tread applications versus competitive products
Weatherability	XXX	XXX	XX	XXX	Based on proprietary capstock technology with proven weather resistance
Environmental Blushing	XXX	XXX	X	XXX	Resists build-up of white spots from standing water that is heated in the sun
Ultra Low Maintenance	XXX	XXX	XXX	XXX	Cleanup is easy with a mild cleaner (common household cleaners) and a soft brush
Approximate Initial Upfront Cost	XX	X	XXX	XXX	Premium features and quality for a competitive price
Heat Dissipation	X	XX	XX	XXX	Deck stays cooler longer and is more comfortable to enjoy

Exclusive Proprietary Protection.

Clubhouse Decking is made with proprietary capstock technology, the exclusive patented protection that has been tested and proven in the field for more than 30 years.

Our capstock provides an unprecedented barrier against the harsh effects of ultraviolet light, driving rain, high humidity and the extremes of heat and cold. Plus the added bonus of dimensional stability and impact resistance.

Looking for something different? Check out **TRUNORTH | DECK** a TRUNORTH COMPOSITES company

You want the best, and we deliver the best. TruNorth is the only company that offers non-wood based and PVC free capped rice hull composite decking. Our rice hull fiber composite is proven to resist water penetration which means your beautiful deck will not mold, rot, or swell. Since we encapsulate both sides, you have the comfort of knowing you can flip the boards over in the future if you damage them. For more information, visit www.TruNorthDeck.com.

World-Class Material Science.

Korelite™ makes decking lighter, denser and stronger, creating a unique, dense cell structure that minimizes imperfections, voids and water absorption while offering superior strength.

Korelite uses world-class material science, tooling and manufacturing capabilities to create a higher density top and bottom – just like an I-beam. And our high-performance capstock and foam interior act like a stress skin panel.

The result is an exclusive, proprietary technology that looks as good as it performs underfoot.

- Fade and stain resistant with 25 Year Limited Warranty
- Never paint, stain or seal
- More durable than other composite boards*
- Heat blocking technology keeps deck cooler
- Rice husk formula means no rotting or molding
- Eco friendly product made with 95% recycled materials
- Reversible boards with capping on all four sides
