NEW CONSTRUCTION VINYL WINDOWS & PATIO DOORS

SIERRA
PACIFIC
WINDOWS

VINYL WINDOWS WITH SIERRA PACIFIC DNA

High quality and high performance don't have to be high priced. Our vinyl windows and patio doors are made right in our Sierra Pacific manufacturing facility, which means they're crafted with many of the same features and design options as our premium wood products.

THE QUALITY OF SIERRA PACIFIC

As long as you're buying windows, take a moment to choose the right brand.

At Sierra Pacific, we've been making highly-regarded, smoothly-operating vinyl windows for decades. Our products use the newest materials and technologies to enhance their beauty and performance.

With our innovative engineering and manufacturing, your new windows will bring the beauty of the outdoors in, while keeping the extremes of the weather out, and all without causing you a care in the world.

Russell Campaigne, CK Architects

SO MANY WAYS TO MAKE THEM YOURS

Choose from a complete lineup of operating styles, sizes and shapes and a full range of glazing options, from decorative to energy-efficient. They also come in a beautiful range of durable exterior colors with custom colors also available, as well as many grille patterns in simulated divided lite or grilles between the glass.

ALL THE COLORS OF YOUR LIFE

Unlike ordinary vinyl windows, ours are available in an unlimited number of exterior colors. You can choose from 14 decorator colors, or we'll color match anything in the rainbow.

But equally as important as the variety of our colors, is the durability of the finish.

Our window and patio door frames are painted with our exclusive 6-step Ultrabond Paint System. It meets AAMA 615 performance specifications, and includes a unique heat-reflective additive.

Our Ultrabond Paint System is so superior, it's backed by a 10-year warranty.

OPTIONAL PAINTED EXTERIOR COLORS

Linen 032

Seawolf 044

Gull Gray 007

Battleship Gray 321

Steel Blue 114

Black Sable 060

Hartford Green 050

Greek Olive 081

Clay 026

Colonial Red 054

Antique Bronze 057

Bahama Brown 309

Bronze 024

Black 023

We'll also custom match any color under the rainbow.

INTERIOR COLORS

Sierra Pacific Windows is happy to offer Black Laminate Vinyl windows and doors. The exterior grade vinyl laminate is used on both the exterior AND interior of the product, giving you the best product solution for this contemporary design trend and the protection you want.

New black on black laminated vinyl interior and exterior Casement Window.

STANDARD VINYL COLORS.

Sierra Pacific standard interior and exterior colors are beige or European white.

EXTERIOR ACCESSORIES

Our flat casing and brickmould are universal throughout most of our lines, so they match exactly.

Flat Casing

Brickmould

Sill Nosing

J-Channel

INTERIOR ACCESSORIES

Drywall return 1/2", 5/8" & 3/4" available on Premium and Designers' products.

DECORATIVE GRILLES

Decorative grilles can add charm and character to any home. For some people, a large expanse of glass looks too contemporary for their taste. But add a classic grille, and suddenly the look becomes very traditional.

You can choose classic simulated divided lites or our maintenance-free grilles between the glass.

Simulated divided lite grille profile.

7/8" Putty
2" grille also available

Grille patterns from traditional to unique.

Grilles between the glass.

11/16" Contour

5/8" Flat

HIGH PERFORMANCE GLAZING OPTIONS

What's the best glazing for your windows and patio doors?

Obviously, what's best for a freezing northern winter is not necessarily right for a hot southern summer. We have the answer. With one of the broadest selections of glazing options in the window industry, Sierra Pacific lets you choose exactly the right performance glass for your exact weather and environmental conditions.

You can choose glazing to improve your energy efficiency and lower your energy bills. You can capture the sun's heat, or reflect it. You can also reduce outside noise, protect your interiors from the sun's damaging UV rays, or even enhance your privacy.

DECORATIVE GLAZINGS

Decorative glass options
can vary by product type.

Narrow
Reed Satin Etch White
Laminated Beveled
Edge V-Groove

FINE TUNE YOUR WINDOWS FOR OPTIMAL PERFORMANCE

Low-E 366

Cardinal's triple layer silver product for superior performance. 95% UV protection. Solar heat gain coefficient of 0.27.* Also available with Preserve® protective film or with Preserve and Neat® coating for a naturally cleaner glass when selecting XL Edge Spacer.

Low-E 366 with i89 Coating**

The same superior performance as regular Low-E 366 (above), but with the addition of i89 coating on the interior surface to increase insulating value and reduce solar heat gain. Meets even the most extreme requirements in the majority of the Canadian Energy Star zones. Also available with Preserve® protective film or with Preserve and Neat® coating for a naturally cleaner glass when selecting XL Edge Spacer.

Low-E 340

Cardinal's newest glazing innovation. It has an amazingly low 0.18* solar heat gain coefficient to keep out the heat even in the blazing sun. Slightly tinted. Blocks 98% of UV rays. Less heat gain when it's hot, less heat loss when it's cold, and the best glare control under the sun. Also available with Preserve® protective film or with Preserve and Neat® coating for a naturally cleaner glass when selecting XL Edge Spacer.

Low-E 180 Passive Solar

A very high (0.70*) coefficient for capturing solar heat gain. Ideal for reducing your heating bills in colder climates. Superior insulation value blocks cold and keeps in the heat. Also available with Preserve® protective film or with Preserve and Neat® coating for a naturally cleaner glass when selecting XL Edge Spacer.

Low-E 180 Passive Solar with i89 Coating**

The same superior performance as regular Low-E 180 (above), but with the addition of i89 coating on the interior surface to increase insulating value. Meets even the most extreme requirements in the majority of the Canadian Energy Star zones. Also available with Preserve® protective film or with Preserve and Neat® coating for a naturally cleaner glass when selecting XL Edge Spacer.

Dual or Triple Pane Low-E

Insulated for improved energy efficiency. Single surface low-E coating to reduce solar heat gain and block UV rays.

Insulated Glass

For moderate climates. Basic glazing with basic performance.

Sound Control

Reduces outside noise by as much as 50% while blocking 99% of damaging UV rays. Laminated for shatter resistance. Available insulated or non-insulated.

*All values shown are center of glass. **Interior surface coatings, also known as surface #4, are applied to the interior (room-side surface) of a dual pane IG unit, resulting in improved thermal performance and lower heating costs. Because the coating reflects heat back into the room, the room-side pane of glass will be slightly colder in winter, causing a higher potential for interior condensation.

8000 SERIES

WINDOWS & PATIO DOORS

Sierra Pacific vinyl windows and patio doors come in almost every operating style you could wish for. On the following pages, you'll discover that high quality and high performance don't have to be high priced.

PREMIUM DOUBLE HUNG

DESIGNERS' SINGLE HUNG

BUILDERS' SINGLE HUNG

AWNING

Sierra Pacific vinyl windows & doors come with one of the strongest warranties in the industry. As simple proof of the confidence we have in our products, our warranty is also transferable if you should ever sell your home. Please see actual warranty for complete details.

PREMIUM DOUBLE HUNG

THE ULTIMATE VINYL WINDOW

Our Premium Double Hung truly lives up to its name. Even at first glance, you'll recognize that this is the nicest vinyl window on the market.

Look closer, and you'll discover that our Premium Double Hung actually mimics all the details of a premium wood window. Its multi-chamber construction is heavy-duty and first rate. And, of course, you'll find plenty of premium options that are not available from most vinyl window brands—such as painted exteriors, high performance glazing, decorative glazing and grilles, and accessories like wide, flat casing and brickmould.

ADVANCED AUTO TILT.

Lots of double hung windows tilt, but not like this one. Our low profile tilt/lock mechanism makes all the difference for easy tilting, easy cleaning and easy locking...without those tilt pins that hurt your fingers.

Available in matching double horizontal slider, picture windows and transoms.

STANDARD FEATURES

- 3-1/4" Multi-chamber mainframe
- Intercept® warm-edge spacer
- 3/4" or 1" Insulated glass
- Constant force balances
- Low profile advanced combination auto tilt/lock latch
- Welded sash and frame w/integral nail fin
- Contoured glazing bead mimics the look of a wood glazing bead
- Full or half screen
- Fin-Seal weather-stripping
- NFRC certified

Shown with optional painted exterior and optional flat casing.

IMPROVE YOUR VIEW

Casement

Awning

Open up any room with a dramatic combination of our casement and awning windows. You can use just one by itself—they come as wide as 35.5"—but they definitely create a unique look when combined in multiples or with any other unit.

Our casement opens wide for extra ventilation. Our awning lets you get fresh air even when it's raining. Both feature beautiful styling, beefy construction and premium quality performance.

Our folding handle is contemporary & very smart. It's there when you need it, and folds out of the way of your window treatments.

Available in matching picture windows.

ARCHITECTURAL SHAPES

UNIQUE INDIVIDUALITY

Add some circles, triangles, and hexagons to your home. Or how about an eyebrow or a cathedral? We offer a complete line of direct-glazed architectural shape windows. They add a unique individuality to any room, and are crafted with the same meticulous attention to details as all Sierra Pacific products.

They're available in the full line of Sierra Pacific's performance and decorative glazing options. Exterior colors are European white and beige, optional in Laminated black interior and exterior, or Ultrabond paint colors.

SLIDING PATIO DOORS

EVERY PATIO DOOR SHOULD SLIDE THIS EFFORTLESSLY

Our sliding patio doors are solidly built of sturdy, multi-chambered vinyl for a lifetime of dependable operation. For a lifetime of smooth operation, they have adjustable tandem bearings. They're available with 2, 3, or 4 panels.

Also available in matching transom and sidelites.

Your Sierra Pacific product may contain inert gas, intended to improve thermal performance. Even the best manufacturing techniques cannot guarantee that the initial fill rate of the inert gas will be maintained during the product's lifetime, and Sierra Pacific makes no such guarantee. If the product is fitted with a breather or capillary tube system, it must be treated as if it is entirely air filled. Sierra Pacific does not guarantee the presence of inert gas or any thermal performance related to inert gas. See actual warranty for complete details.

We reserve the right to change product specifications without notice. Photography used may not represent current product features and options.
Sierra Pacific windows and doors are successful thanks in part to our unique patents. Visit spi-ind.com/ip to learn more.
